Introduction

About us

Makany started in 2000 by Arch. Mohamed Wahballa with simple beginnings and grew solely through the hard work of the staff and the support of customers that called out for friendly fair service and an exciting collection of fresh and new .modern designs

Makany design is founded on the principle that well-designed,well-made product should be stylish and functional and affordable

Makany providing a complete wood work solutions

Our field of activities ranges from manufacturing to installation of any wood working elements

We provide complete support including free space planning,on-site installation,- flexible lead times and on-time delivery ,to help you design and set up your new environment

We've been able to offer our customers both unparalleled service and valuable products because we directly source a good portion of our goods

For private clients flexible programs, policies, and new, non-redundant designs

At Makany ,we stand behind our products and want to make sure our customer experience has been exceptionally positive by offering a unique combination of stylish products,special customer programs and flexible policies
